Charging Time

Multiple speed modes: Three different ride modes meet children different skill levels. The lowest speed is 10km/h and the highest speed is up to 21km/h.

Wide and anti-slip tires: Easily cope with all kinds of road conditions, smooth riding without slipping, safer for children.

Twist throttle design: Children can control their own speed, feel the joy of controlling their own speed.

Low seat height: Riders can easily touch the ground, don't be afraid of losing balance.

Lightweight: All aluminum alloy frame, weight only 10kg! Children can easily control, quickly build up their confidence.

No sharp edge wide pedal: No scratch during sliding, and the wider pedal is more comfortable for the foot.

Specification		
Model:	BB01	BB02
Battery voltage/capacity:	24V 5.2AH	36V 5.2AH
Battery type:	Lithium Battery	Lithium Battery
Rated power:	200W	250W
Power modes:	10-15-21KM/H	15-20-25KM/H
Torque:	23N.M	35N.M
Frame:	Aluminum	Aluminum
Overall size:	96*51*60CM	120*53*75CM
Seat height:	420MM	475MM
Wheelbase:	660MM	780MM
Ground clearance:	130MM	190MM
N.W:	10KG	12KG
Tires:	12Inch	16Inch
