

REV2 PRO

2500W | 45KM/H | 990MM | 280N.M
Peak Power | Max Speed | Wheelbase | Torque

REV2

1700W | 35KM/H | 990MM | 80N.M
Peak Power | Max Speed | Wheelbase | Torque

The first professional pit bike for kids 8-12 years old.

Kill safety switch: When in trouble, unplugging the switch will turn off the power to provide children safety.

Three speed modes: Parents can set the initial speed mode according to the child's skills, and different speed modes meet different skill needs.

Removable lithium battery: Full of power and stability, weight is only 5.15 kg, children can also easily replace themselves.

"Window" Shape Air Duct

Enter more fresh air, excellent heat dissipation performance.

Brushless DC Motor

Small body big power, the peak power is up to 2500W.

Vertical Rear Shock Absorber

With a small space to achieve the best cushioning effect, better impact resistance.

Aluminum Alloy Frame

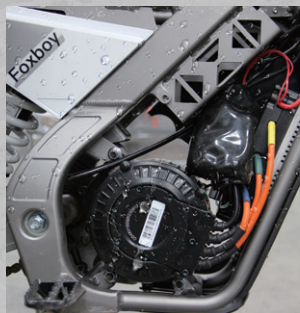

All aluminum alloy frame and rear fork, weight only 5kg, easier for children to operate.

Wider rear wheel design: Better grip effect, easy to handle all kinds of road conditions.

Hydraulic disc brake: Brake stroke 160mm. More accurate and powerful braking force.

Waterproof: The whole protection level is up to IP65 !

SPECIFICATION

Model:	REV2	REV2 PRO
Battery voltage/capacity:	48V 15AH	48V 20AH
